Objective

To engage with contemporary artists and thinkers in a dialogue on the integration of indigenous aesthetics with Christian themes, to reflect on the challenges and opportunities in the process of inculturation and adaptation of Christian iconography in India. To encourage the documentation and promotion of indigenous Christian art forms and their significance in the broader religious and cultural landscape, to facilitate and initiate building of a self-sufficient financial model/ecosystem, which could be self-sustainable for the Indian artists who produce Christian art forms.
